Accessories

Swisspack has a long-standing experience in providing a wide range of high-end packaging, display and other custom fixture solutions to the luxury goods industry, such as watches and jewellery, cosmetics, pharmaceuticals, wines & spirits.

LUXURY IN THE DETAIL

At Swisspack, we understand luxury and the combination of art and science it entails. As such, our packaging solutions are created with deep consideration of purpose and meticulous attention to details.

We provide importance to details at every step of the development process and engage in thorough communication with our clients to build an understanding of their design and quality requirements from start to end of projects.

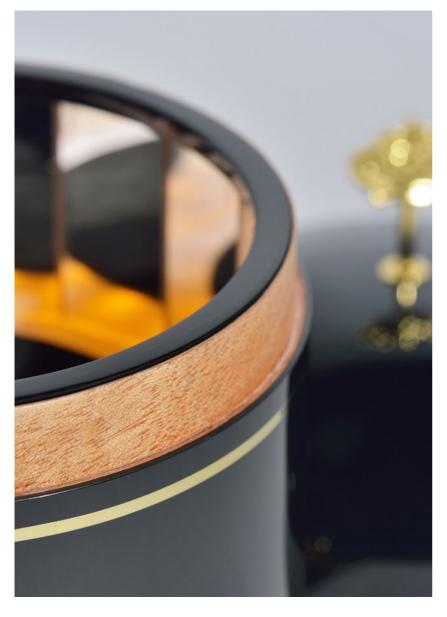

Swisspack's in-house team of project managers, designers, engineers and factory workers, have a long-standing experience in the luxury goods industry and are continuously trained in their respective domains to ensure each project is carried out according to the clients' standards, yielding the best quality for the best price.

ARTFUL CRAFTSMANSHIP

At Swisspack, we value the art of handmade craftsmanship. We have recently taken part ownership of Consummare, one of our distinguished manufacturing partners since 2010 with whom we share a passion for innovation and relentless perfectionism.

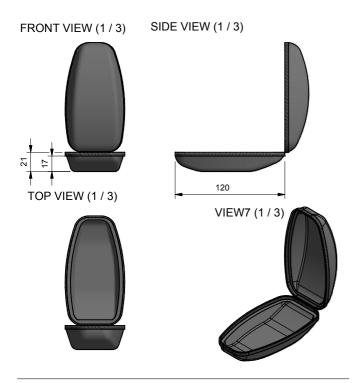

Together we can produce high-end packaging through unmatched craftsmanship - unique shapes and high quality veneering, engraving, upholstering, stitching, as well as all kinds of branding (hot-stamping, silkscreen, metallic foil, etc.).

OUR FULL RANGE OF SERVICES

DESIGN & INNOVATION

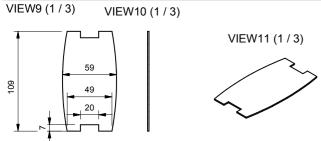

Based on your brand image and needs, our designers and engineers create several proposals (from sketches to 3D renderings) with a special focus on innovations to achieve the most unique shapes, finishes and functions for your product.

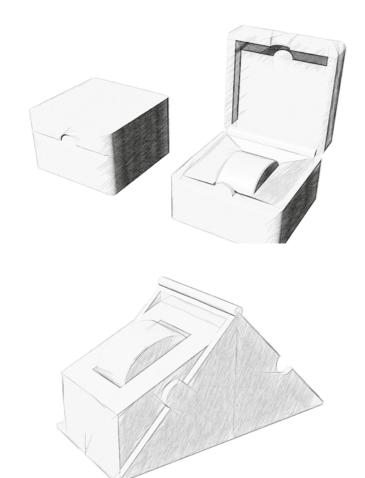

PROTOTYPING

Once the 3D model has been validated, Swisspack will produce a prototype that will enable you to evaluate the quality and make necessary adjustments accordingly. Depending on the project, we are also able to produce express prototypes through our 3D printers in Switzerland.

MATERIAL & KNOW-HOWS

At Swisspack, we have mastered the use of a wide range of materials and production techniques and can combine them to create state-of-the-art designs. A selection of materials and production techniques that we specialize in are highlighted in the following lists:

MATERIALS

- Metal: Stainless Steele, Brass, Aluminium, etc.
- Gold plated.
- Leathers & Suedes: Full grain, Recycled, Imitation, etc.
- Wood: Lacquered, Oiled or Painted.
- Microfiber.
- Cardboard.

KNOW-HOWS

- Wood veneering.
- Plastic injection.
- Water transfer.
- Branding: Hot-stamping, Embossing & Silkscreen, and Metallic Foil
- Laser engraving.
- Upholstery & Stitching.

PRODUCTION

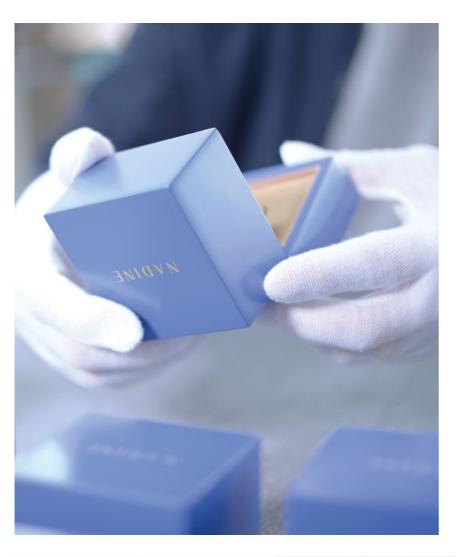

Swisspack collaborates with select and long-time manufacturing partners in the Philippines, China and Europe, that are experts in their respective fields and materials to ensure the best results are always delivered. We are thus able to pick from a pool of manufacturers and choose production models that best fit your product and quality standards.

The later and our extensive experience in working with different shapes, materials and production techniques enable us to make minute finishing choices to achieve a perfect result.

COMPLIANCE - QUALITY CONTROL

As a service provider, we are committed to the highest standards of business practices. This includes stable production, compliance to quality control specifications, elimination of waste and a pledge of full transparency in all our business activities.

Throughout the production process, quality control is carried-out by an expert team that has long-term experience in the field and that is continuously briefed on the client's quality requirements.

DELIVERY & AFTER SALE

We deliver around the world and provide fast and efficient aftersales service.

ENVIRONMENT & CERTIFICATIONS

As an ethical and environmentally conscious company, we comply with REACH & CITES, FSC and SA 8000.
